

Procedure: Update the Standard Opening Hours

The following procedure assumes that you have the role of Fulfillment Administrator (or General Administrator) and you have selected a valid Library from the top of the Configuration page.

Go To: Alma --> Configuration --> Fulfillment --> Library Management --> Opening Hours

The screenshot shows the Alma Configuration interface. At the top left is the Washington Research Library Consortium logo. To its right is a dropdown menu labeled "Configuring: WRLC - Shared Collections Facility" with a green arrow pointing to it from the text "Library Selected". Below this is a sidebar with four main categories: Alma Production, Discovery, Fulfillment, and General. The Fulfillment category is selected. Under Fulfillment, there are three sub-sections: Library Management, Locations, and Physical Fulfillment. Under Library Management, "Opening Hours" is highlighted with a green circle. To the right of the sidebar is a large illustration of a person working on a laptop, with large orange gears and a satellite dish in the background.

Find the calendar entries of type "Standard opening hours". (You can arrange the record types alphabetically by clicking on the Record type column header.) Select the ellipsis at the right of the first entry.
