

Metadata Infrastructure in the SCF IZ

Every item that resides in the WRLC's Shared Collections Facility (SCF) has two records in our Network Zone; a copy that resides in the owning Institution's IZ, and a second copy that resides in the SCF IZ. The second SCF copy is primarily used for shelf and workflow control at the SCF. Because of this, the SCF copy is suppressed from discovery in the patron-facing catalog (Primo). The record that patrons view in Primo is the record in the owning Institution's IZ.

When a patron requests an item located at the SCF, the request is attached to the owning institution's copy of the item record (the unsuppressed record). Then the SCF publishing app automatically transfers that request to the SCF copy of the item record (the suppressed record).

Bibliographic Records

If the owning Institution's item record is attached to a Network Zone bibliographic record, the SCF copy of the item record will also be attached to the same NZ bib record. The SCF holding and item records are suppressed from discovery in Primo.

The screenshot shows a Primo catalog record for the book "The theatre of Bertolt Brecht: a study from eight aspects." by Willett, John. The record is displayed in a table-like format with tabs for Institution, Network, and Community. The record includes a thumbnail image of the book cover, a brief description, and a list of holdings. The record is currently held by two institutions: the owning institution (My Institution) and a shared storage institution (Shared storage institution). The record is suppressed from discovery in Primo.

Other details

The SCF copy of the bib record will have the MMS Id of the owning Institution's record in the 035 field; the inclusion of the MMS Id allows for requests of non-NZ linked items to occur.

Any updates made to the owning Institution's bib record will NOT be transferred to the SCF copy of the bib record.

If an SCF item is moved to a different bib record, please open a WRLC Service Desk ticket (servicedesk@wrlc.org) so that the SCF copy can be updated. Without this necessary step, requests for this item may fail.

Holding Records

All SCF holding record copies are suppressed from Discovery.

Any updates made to the owning Institution's holding record will NOT be transferred to the SCF copy of the holding record.

Item Records

The SCF copy of the item record has a few key differences from the original owning Institution item record.

The barcode will have an 'X' appended to the end. In addition, a provenance code is added to keep track of which Institution owns the item.

Unlike the bib and holding records, updates made in the following fields to the owning Institution's copy of the item record will be transferred to the SCF copy:

- Material type
- Description
- Enumeration A
- Enumeration B
- Enumeration C
- Enumeration D
- Chronology I
- Chronology J
- Chronology K

Item Locations

The permanent or temporary WRLC location in the owning Institution IZ is transferred to the SCF IZ as a permanent location.

If the item location in the owning IZ has one of the following location codes, the item in the SCF IZ will have the exact same location.

Any SCF location in the owning IZ that is NOT listed above will be given the default location of *wrlcstor* in the SCF IZ.

Primo VE

Although there are two record copies for each item, the patron only sees one item in Primo because all SCF records are suppressed.

For example, this bib record has both American University and SCF holdings attached.
