

Metadata Infrastructure in the SCF IZ

Every item that resides in the WRLC's Shared Collections Facility (SCF) has two records in our Network Zone; a copy that resides in the owning Institution's IZ, and a second copy that resides in the SCF IZ. The second SCF copy is primarily used for shelf and workflow control at the SCF. Because of this, the SCF copy is suppressed from discovery in the patron-facing catalog (Primo). The record that patrons view in Primo is the record in the owning Institution's IZ.

When a patron requests an item located at the SCF, the request is attached to the owning institution's copy of the item record (the unsuppressed record). Then the SCF publishing app automatically transfers that request to the SCF copy of the item record (the suppressed record).

Bibliographic Records

If the owning Institution's item record is attached to a Network Zone bibliographic record, the SCF copy of the item record will also be attached to the same NZ bib record. The SCF holding and item records are suppressed from discovery in Primo.

The screenshot displays a Primo catalog record for the book "The theatre of Bertolt Brecht: a study from eight aspects." The record is shown in the "Institution" tab. The top navigation bar includes "Institution", "Network", and "Community" tabs. Below the tabs, there are filters for "Select All", "Sort by: Rank", and "Secondary Sort by: Rank". The record details include a thumbnail image of the book cover, the title "The theatre of Bertolt Brecht: a study from eight aspects.", and the author "Book (Book - Physical) text; unmediated; volume By Willett, John. (London, Methuen, 1967.)". The subject is "Brecht, Bertolt, -1898-1956." and the edition is "3rd ed. revised." The record is held by two institutions: "My Institution" and "Shared storage institution". The record number is (OCoLC)02616710. The creation date is 07/11/2018 05:09 AM EDT and the modification date is 09/14/2023 02:55 PM EDT. The language is English and the MMS ID is 9911620768604101.

If the owning Institution's item record is NOT attached to a Network Zone bibliographic record (if it is attached to an IZ-only record), then the SCF copy of the item record will be attached to a suppressed copy of the IZ-only bibliographic record.

Other details

The SCF copy of the bib record will have the MMS Id of the owning Institution's record in the 035 field; the inclusion of the MMS Id allows for requests of non-NZ linked items to occur.

Any updates made to the owning Institution's bib record will NOT be transferred to the SCF copy of the bib record.

If an SCF item is moved to a different bib record, please open a WRLC Service Desk ticket (servicedesk@wrlc.org) so that the SCF copy can be updated. Without this necessary step, requests for this item may fail. For more policies like this, see the [Updating SCF items \(barcodes, bibliographic records, etc.\)](#) page.

Holding Records

All SCF holding record copies are suppressed from Discovery.

Any updates made to the owning Institution's holding record will NOT be transferred to the SCF copy of the holding record.

Item Records

The SCF copy of the item record has a few key differences from the original owning Institution item record.

The barcode will have an 'X' appended to the end. In addition, a provenance code is added to keep track of which Institution owns the item.

Primo VE

Although there are two record copies for each item, the patron only sees one item in Primo because all SCF records are suppressed.

For example, this bib record has both American University and SCF holdings attached.
